TRANSFORMING DIGITAL PHOTOGRAPHY INTO IMMERSIVE STORYTELLING

We are thrilled to announce the launch of the SHOOT Project, an innovative European initiative that transforms digital photography into a powerful educational tool. This project aims to revolutionize learning, making it more accessible and engaging, especially for students facing educational challenges.

What is the SHOOT Project?

This pioneering effort harnesses immersive learning to help students retain information and gain a deeper understanding of academic material. In today's increasingly visual world, we leverage the power of photography to promote digital literacy and embrace diversity.

KEY COMPONENTS

1. **SHOOT Roadmap:** Training students and teachers to implement three immersive lessons that enhance learning outcomes.
2. **Digital Photo Storytelling Methodology:** An innovative teaching approach that integrates digital tools and photography to create compelling narratives.
3. **TIC – The Immersive Classroom:** Spaces designed to foster active participation and collaboration through immersive learning.
4. **The SHOOT Experience:** Three transformative lessons that showcase the potential of this innovative methodology.

PROJECT PARTNERS

The project brings together a consortium of organizations committed to transforming education:

- FORIUM (Project Coordinator)
- Liceo G. Marconi, Italy
- Valencia Inno Hub, Spain
- Sociedad Cooperativa de Enseñanza Carlos V, Spain
- AINTEK, Greece
- 3rd Gymnasium of Nikaia, Greece
- Danmar Computers, Poland
- Mittetulundusühing Noored Ühiskonna Heaks, Estonia

Sustainability and Impact:

Through training programs, workshops, and collaborative methodologies, the project aims to reduce school dropout rates and foster inclusive education. By using photography as a learning tool, we make knowledge accessible to everyone.

Join the Movement:

We are proud to collaborate with our esteemed European partners on this ambitious project. Together, we are making a difference in education by embracing innovative and inclusive methodologies.
